

# Lowell & Partners — Regulatory Practice

33 Ironforge Lane, Regulatory Square

File No.: LP-RG/45/25

FAXED

Customer Services Division

Date: October 10, 2025

Our firm represents an individual identified herein as 'the Client.' The Client has instructed us to express concern with repeated communications concerning purported administrative matters referencing account details. This correspondence requests a temporary suspension of certain outbound correspondences directed at our Client while the underlying authorization and identity validation are reviewed. The request is deliberately framed to require verification rather than to categorically bar all forms of contact; however, absent demonstrable authority to proceed, continuing intrusive outreach may obligate our Client to assert further protective measures. Kindly provide the records and legal predicates which, if any, you rely upon for ongoing communications. Prompt confirmation of both receipt and the remedial steps you intend to take will be appreciated. This letter does not waive, and expressly reserves, all rights available to the Client.

Counsel for the Client
