Data Privacy & Outreach Unit

Date: October 10, 2025

FAXED

On behalf of our client, whom we identify for the purposes of this letter as the 'Principal,' we register concern about repeated data-driven outreach that has been logged by the Principal. This communication sets forth a request for clarification and a restrained procedural response: please identify the legal basis and any consent records relied upon for ongoing notifications and communications. The notice is intentionally non-prescriptive in its phrasing to allow for cooperative resolution; nonetheless, it asks that you avoid initiating further non-essential communications until the matter is clarified. If your records demonstrate lawful entitlement to continue, forward the documentation. Our client reserves all rights and may seek protective or corrective relief if irregularities persist. We expect a written response confirming actions taken to address this inquiry.

Counsel for the Client
